

VISION OF MANO & MANO

Our Vision is one which by God's grace we would like to see develop in the coming months and years.

Education - to continue to help & encourage the children particularly from the poorest homes in the area with education.

Community - to develop programmes with parents, children and our ongoing youth work - the new facilities has a large basement area that could be refurbished and used as a youth club for instance.

Health - one friend of ours is a trained dentist and if we had the new place we would seek to use one room as a dentistry and seek to look at other health needs in the area.

Training & Leadership - particularly work with young Christians in terms of discipleship and leadership under a course called "Agents of Change" that combines theory and devotion and yet is practical; as Elton Trueblood *comments* "No vital Christianity is possible unless at least three aspects of it are developed. These three are the inner life of devotion, the outer life of service and the intellectual life of rationality".

Mission - leading on from the above to see people released in acts of service rather than just being content to sit in church once a week; to be engaged in Mission whether it's local through, holiday Bible clubs and links with schools, or further afield visiting prisons, hospitals etc.
